Subject: RE: R9 and Class VI permits

Hi Anhar,

I'll refer you to David Albright (copied on this email) in Region 9 for questions about the CES project and setting up a discussion with Air Products. Thanks for reaching out.

Molly

Subject: R9 and Class VI permits

Hi Bruce and Molly,

You guys have mentioned a permit application in R9 and I'm wondering if you could share more info about the project. We heard that it is a Clean Energy Systems project and DOE has funded them in the past, but this isn't one of our projects so anything you could share would be appreciated.

I also want to give you a heads up that there is another project happening in R9 (not a DOE funded project). We got an update from Air Products about it on Friday and I don't think they've reached out to EPA yet. I'd like to suggest to Air Products that they brief you and R9, at your convenience, but wanted to touch base first to make sure that would be helpful?

Thanks,
Anhar
